HARSHA ANNASAMUDRAM

+91-9676907106 | harsha.annasamudram@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

AI & ML graduate with hands-on experience in data analytics, business reporting, and dashboard development using MS Excel, PowerPoint, Power BI, SQL, and Python. Skilled in data cleaning, validation, and exploratory data analysis across multiple internships, with strong attention to detail, documentation, and stakeholder communication in translating data into clear, accurate, decision-ready reports.

SKILLS

AI & Machine Learning: Python, PyTorch, Scikit-learn, XGBoost, Transformers, LLMs (OpenAI, Claude, Gemini), Prompt Engineering, Vector Databases (Pinecone, Weaviate, pgvector), Agentic AI, Fine-tuning (LoRA/QLoRA)

QA & Software Testing: Manual Testing, Functional Testing, Test Case Design, Test Scenario Design, Bug Identification & Reporting, UI Testing, User Acceptance Testing (UAT)

Web Development: React.js, JavaScript, TypeScript, HTML5, CSS3, Responsive Web Design

Business Automation: Workflow Automation, Lead Management Automation, Process Automation, Excel VBA, Reporting Automation, Data Validation

Data Analytics & Reporting: MS Excel, Power Query, SQL, Power BI, DAX, Tableau, Data Cleaning, Data Validation, EDA, KPI Reporting

Tools: Git, GitHub, Netlify, Google Forms, Browser DevTools

EXPERIENCE

AI-Powered Data Analysis Intern —Excelerate *2 months*

- Cleaned and validated a dataset of 8,500+ learner participation records, improving data quality through structuredpreprocessing and validation techniques.
- Performed EDA and feature engineering (demographic, temporal, engagement-based) using Python, Pandas, Matplotlib, andSeaborn to identify participation and engagement trends.
- Built and evaluated classification models, including XGBoost, to generate probability-based engagement predictions.
- Created dashboards, charts, and visual reports; collaborated with an international team on technical documentation andstakeholder presentations.

Data Analytics Intern — Oasis Infobyte *1 month*

- Performed exploratory data analysis on retail sales data using Python, Pandas, Matplotlib, and Seaborn to identify customerand product trends.
- Built a customer segmentation model using K-Means clustering (Scikit-learn) to classify customers by income and spendingbehavior.
- Executed end-to-end data cleaning and preprocessing, including missing value handling, duplicate removal, and outlierdetection.
- Generated business insights and recommendations to support data-driven decision-making.

Data Operations & HR Intern — B2B Drive (Remote) *3 months*

- Generated and maintained 15+ weekly business reports using MS Excel to monitor operational and workforce performance.
- Organized, cleaned, and validated operational data to ensure accuracy and consistency before reporting to stakeholders.
- Presented operational data and reporting insights using Excel and PowerPoint to cross-functional teams, supportingdata-driven decision-making.

PROJECTS

Excel VBA Sales Report Automation Tool — Excel, VBA

- Developed a VBA solution to consolidate 5 monthly sales workbooks into a standardized master dataset, implementingheader-based mapping, data validation, and error logging.
- Automated regional revenue summaries and chart generation using Excel formulas and VBA.

Retail Sales Analytics Dashboard — Python, Pandas, Power BI

- Analyzed 51K+ retail transactions to identify revenue trends and customer behavior.
- Developed an interactive Power BI dashboard with KPIs to communicate business performance insights.

HR Analytics Dashboard | Power BI, DAX, Data Analytics

- Developed an interactive Power BI dashboard to analyze employee attrition, salary trends, workforce demographics, anddepartment-level performance.
- Created DAX measures and KPI visualizations to identify workforce patterns and support data-driven HR decisions.
- Transformed employee data into interactive reports for analyzing organizational performance and workforce trends.

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML)

GITAM University, Visakhapatnam | 2022 – 2026
